

We are known, we are valued, we succeed

Diversity Statement

Local Governing Committee

The Governors of Altwood School believe it is important that the Local Governing Committee reflects the diversity of the school communities they serve. Diverse Local Governing Committee's promote inclusive school environments and provide diverse role models for staff and young people.

Due to the relatively small Committee, we do not publish diversity data as individual governors could be identified and we have a legal obligation to protect their personal data.

The Altwood School's Local Governing Committee welcomes interest in membership from all those who will support us in our objectives and will contribute to the strength and success of our school community. For the avoidance of any possible doubt we confirm that we continue to welcome and will consider from all, applications regardless of gender, ethnicity, race, social standing, physical disability, religion, faith or sexual orientation.

The Committee recognises and takes into account in the selection of appointees to office within the Committee, the benefits of diversity (alongside appropriate skills and experience) for the management of the Local Governing Committee and its affairs.
