UNIT ONE – What is Business

Business studies is offered at A-Level because it engages students through topics and issues that are relevant in today's society such as digital technology, business ethics, and globalisation. Students will develop the knowledge and skills needed to analyse data, think critically about issues, and make informed decisions – all skills that are needed for further study and employment. We follow the AQA specification in KS5. This provider was chosen because it builds upon the content learnt at GCSE such as further developing an understanding of business operations and marketing strategies.

Strategic decision making

Tactical decision making
